Summary

I am a self-driven Computer Science Engineering student with strong foundations in Data Structures, OOP, SQL, and Core CS subjects. Experienced in full-stack web and mobile development using React, JavaScript, Node.js, Express, MongoDB, and React Native. Built scalable applications including a MERN-based LMS with authentication and role-based access. Hands-on experience in Machine Learning and NLP using Python, TF-IDF, LSTM, and RNN. Proficient with Git, REST APIs, and Agile project workflows.

Education

KLE Technological University Bachelor of Engineering in Computer Science and Engineering, Hubli, India CGPA: 8.41 — 7th Semester	Nov 2022 – Jun 2026
Sri Vidyaniketan College Percentage: 95.00%	Aug 2020 – Jul 2022
Alva's High School Percentage: 97.28%	Jun 2016 – Aug 2020

Skills

Programming Languages: C/C++ (Intermediate), Java (Basic), Python (Intermediate)
Domain: Data Analytics, Machine Learning, Deep Learning, Computer Vision , AWS / Cloud Deployment
Development & Frameworks: HTML, CSS , JS , ReactJS, NodeJS, React Native, Express, SQL, MongoDB
Core IT Knowledge: Software Engineering, SDLC, Testing, Computer Networks,DBMS, OS, OOPs , DSA
Tools: Git, Postman, VS Code, Figma, Expo

Experience

Academic & Project Experience

KLE Technological University Hubli, India

Developed academic and self-driven projects involving full-stack web development, mobile applications, and machine learning. Collaborated in team-based projects by following SDLC principles and Agile-style workflows. Utilized Git for version control, debugging, and iterative feature development across multiple project cycles.

Projects

Sentiment Analysis of Indian Political Tweets Python, NLP, Deep Learning Built and evaluated NLP-based sentiment classification models using TF-IDF and LSTM/RNN, achieving 83% accuracy. Performed text preprocessing and model comparison to improve prediction reliability.	GitHub
Cine Stream – Mobile Movie Streaming Application React Native, Expo, JavaScript Developed a cross-platform mobile application using React Native and Expo with modular UI components. Implemented smooth navigation and optimized UI responsiveness across Android and iOS devices.	GitHub
Learning Management System (LMS) MERN Stack Developed a full-stack LMS using the MERN stack with secure authentication and role-based access. Implemented backend functionality for course management and progress tracking.	GitHub

Certifications

MongoDB for SQL Professionals — MongoDB	Link
Agile Methodology, Continuous Integration and Delivery (DevOps) — Infosys Springboard	Link
Oracle Cloud Infrastructure Generative AI Professional (2025)	Link
Research paper titled “Sentiment Analysis of Indian Political Tweets: A Comparative Study with LSTM and RNN Model” published at the 3rd International Conference on Futuristic Technologies, Pune — 2025	Link
